

*Educating Children, Shaping Lives, Preparing Leaders*

Dear Alumni and Friends of ESP,

We write to you with exciting news! In addition to celebrating a fantastic new class of graduates this summer, Emerging Scholars Program is thrilled to have joined the world of social media! Our new accounts on [Facebook](#), [Twitter](#), [YouTube](#), and [Flickr](#) will make it even easier to share news and updates, as well as spread awareness about our program.

Facebook and Twitter will serve as our digital message boards where we will keep our fans up to date with our program, share student successes, and provide educational information. These are also excellent ways for you to keep in touch with us and share stories of your own!

We will also keep YouTube, Flickr, and Facebook updated with our most recent pictures and videos.

In addition, we have created a “cause” application on Facebook so that people all over the world can join together in support of the opportunity and education ESP provides. Our “cause” also allows users to donate directly to our program right through Facebook. Donations have already started coming in!

We hope that you are as excited as we are about this new initiative! Please click on our pages below to become fans and followers of the Emerging Scholars Program and spread the word to your family and friends. The more people that get involved, the further we can spread the reach of our program!

Thank you all for your endless support and we wish you continued success in the future.

See you online!
